ARCALINE 50 & 100 LED STATIC LUMINAIRE.

"Lining up light as in a game... Introducing ARCALINE, the ultimate linear evolution of Ayrton's creations, using the new LUMILED LUXEON K2 High-Power LEDs as its light-source. Proposed in 12 different versions, blending Carbon and Platinum structure colours with 18 or 36 LEDs and RGB, AWW or AVB light sources. It is highly autonomous as it is directly powered through its own on-board power supply unit. And now, it's your turn to play... contact us at: contact@ayrton.eu
