DREAMPANEL IMAGING LED DISPLAY.

Ever thought one could dream with eyes wide open? Introducing Dreampanel. The new modular tile system from Ayrton. This unique screen-floor is specially designed to sustain heavy loads. It enables a 170° angle image-diffusion-system and provides a global screen vision. This innovative concept is ideal for TV studios, show events, exhibitions, conventions, clubs and more. So, dare to step on it? Contact us at: contact@ayrton-light.com
